Join us for eLITHE in Action: Electrifying Industrial Heat for a Competitive, Net-Zero Europe, co-hosted with the Electrification Alliance, to discuss **how to unlock the full potential of industrial electrification in the EU.**

This webinar will spotlight how the EU-funded eLITHE project, as well as the CITADEL project, are pushing the frontiers of high-temperature industrial heating, demonstrating electrification solutions across Europe.

The webinar aims to connect those real-world demonstrations with insights from the recent Agora 'Direct Electrification of Industrial Process Heat' report, which finds that by 2035 direct electrification could replace most fossil-fuel heat in EU industry, at the same time enabling its competitiveness.

The presenters will explore the technical, economic and policy barriers, along with actionable recommendations on how to accelerate industrial electrification in the EU.

AGENDA

Thursday, November 6th

10:00-10:05	Welcome & introduction: • Agenda • Brief overview of the objectives	**Dusan Jakovljevic**, co-founder and Policy and Communication Director, EEIP
10:05-10:15	Keynote: electrification in Europe	**Adrian Heil**, Director, Electrification Alliance
10:15-10-25	Potential for electrification in high grade heat in Europe - AGORA report	**Matthias Rehfeldt,** Fraunhofer Institute for Systems and Innovation Research ISI
10-25- 10:35	eLITHE project presentaion	**Roberto Arevalo,** Technical coordinator, CIRCE
10:35-10:45	CITADEL project presentation	**Sven Eckert,** Scientific coordinator for Helmholtz-Zentrum Dresden-Rossendorf
10:45-10:55	Open discussion and Q&A	**Moderated by Dusan Jakovljevic**, co-founder and Policy and Communication Director, EEIP
10:55-11:00	Next steps & closing remarks	

Funded by the European Union
